

MINNESOTA EROSION CONTROL ASSOCIATION PRESENTS:

Industrial Stormwater Permit Training

Thursday, March 11

12:30 p.m. – 4:15 p.m.

Optional afternoon session at the:

Minnesota Erosion Control Association

Erosion Control & Stormwater Management Conference

Holiday Inn & Suites, St. Cloud, MN

Instructors:

Melissa Wenzel, Minnesota Pollution Control Agency

Zach Chamberlain, Minnesota Pollution Control Agency

John Chapman, University of MN Erosion and Stormwater Management Certification Program

Do you need permit coverage? Presenters will give an overview of the general Industrial Stormwater Permit, including applicability, a hot topic during the Public Comment Period.

The Stormwater Pollution Plan (SWPPP) is the heart of permit compliance. Learn how to develop an Industrial Stormwater SWPPP.

Want some ideas on which Best Management Practices (BMPs) you should consider for your facility? Learn which BMPs might work for you.

The Multi-Sector General Permit for Industrial Stormwater is soon to be issued. This permit is the regulatory mechanism to reduce, minimize, or eliminate contaminated stormwater discharge so that water quality standards are met. This is accomplished through the facility's implementation of stormwater control measures, and through Permittee benchmark monitoring and effluent limit monitoring of the stormwater discharges for pollutants that are specific to each of the twenty-nine different industrial sectors. The new permit is expected to affect almost 8000 facilities, including municipally owned and operated industrial facilities. Attend this session and find out what you need to know about the permit and program.

Please mail/email/fax the registration form to the MECA Office

Registration Fee: \$75.00 (the fee includes entrance to the trade show and afternoon refreshments. The fee does not include entrance to the general session/lunch.)
